CAP 3612. MACHINE LEARNING ESSENTIALS.	3	3	0
MACHINE LEARNING ESSENTIALS Machine Learning Essentials introduces students to the concepts and terminology of Artificial Intelligence and machine learning. Students will be able to select and apply machine learning services to resolve business problems. They will also be able to label, build, train, and deploy a custom machine learning model through a guided, hands-on approach. This course prepares the student for certification exams commonly offered in the cloud computing industry.
