The general education program is 36 semester credits which serve as the core of the curriculum. The 36 credits are selected from 5 core areas of academic courses offered at Valencia: Communications, Humanities, Mathematics, Science and Social Sciences.

Core courses are established by the State Board of Education to create a common General Education experience at every public institution in each of the 5 core areas. Core courses must be offered and accepted by every Florida College System (FCS) and State University System (SUS) institution. Core courses account for 15 credits in the General Education program. Institutional courses are established by each college and university to support their General Education program outcomes. Institutional courses account for the remaining 21 credits of the 36 credit General Education program.
