

DIGITAL MEDIA TECHNOLOGY

Digital Media Technology with Specializations in:

- Video Production
- Mobile Journalism
- Motion Graphics
- Web Development

Associate in Science Degree (CIP# 1611080102)

Valencia's A.S. degree in Digital Media is one of the hottest emerging career fields today. Combining classroom experience with real-world projects, this interdisciplinary program is designed for students seeking exciting careers in digital video production, motion graphics, journalism, or programming for the web. Students create persuasive, informational, educational and entertainment-based projects for the web, mobile devices, broadcast and live events.

The Live Event Video Production specialization focuses on the creation of video and audio materials for formats ranging from streaming web video to full-resolution high definition. There is a strong emphasis on production and working on projects with live audiences in venues ranging from conventions and corporate meetings to themed interactive entertainment.

The Mobile Journalism specialization focuses on creating video, audio, and graphics content for the fast-paced world of news production. Students will learn to write, produce, edit, and upload stories from anywhere in the world. Topics include journalism, photography, on-camera performance, graphics creation, and video production. Students utilize state-of-the-art technology to prepare for work as a backpack journalist.

The Video and Motion Graphics specialization focuses on the artistry and design used to create compelling broadcast and interactive graphics. Students learn about a wide array of industry-standard motion graphics programs, including 3D and interactive motion graphics software.

The Web Developer specialization focuses on the programming associated with client-side web and application creation. Students create dynamic, interactive content using agile programming techniques, pair programming, and the most current scripting and programming languages. This track also covers the business and ethics of web development so students can work effectively as a free-lancer or as part of a team.

If you have an interest in becoming a web programmer, mobile journalist, videographer, video editor, or motion graphic artist, then Valencia's program may be just what you're looking for.

Students are strongly encouraged to consult a Career Program Advisor in the department office for assistance in determining the best education plan for their career goals.

Although scheduling may not always provide for the following progression of courses, students should use the foundation, intermediate and advanced course sequence as a guide in program planning.

All degree-seeking students must satisfy entry testing requirements and satisfactorily complete all mandatory courses in reading, student

success, mathematics, English, and English for Academic Purposes in which the student is placed.

Alternative Ways to Earn Credit

Graduates of specific programs at Orange County Technical Colleges may be eligible to receive college credit for specific courses in this program. You may also be eligible to receive credit toward this degree if you have earned Career Pathways credit. For more information and requirements, go to valenciacollege.edu/asdegrees/credit_octc.cfm (<http://valenciacollege.edu/asdegrees/transfereagreements.cfm>) to view the award of credit options. Eligible students should contact the related academic department and/or Career Program Advisor at Valencia for the award of credit.

Technical Certificates

The Digital Media A.S. degree also offers the following college credit certificate programs. These certificate programs can put you on the fast-track to reaching your career goals. They are designed to equip you with a specialized skill set for entry-level employment or to upgrade your skills for job advancement. Most can be completed in one year or less, and all of the courses in the certificate programs are embedded in the A.S. degree. Click on the Certificate tab at the top of the page for more information about the course requirements.

- Digital Video Fundamentals (12 credits) (CIP # 0610030414)
- Digital-Webcast Media (12 credits) (CIP # 0650010215)
- Digital Media Development (12 credits) (CIP # 0609070209)
- Digital Media Video Production (12 credits) (CIP # 0609070210)
- Digital Media Web Production (15 credits) (CIP # 0650010208)
- Digital Broadcast Production (24 credits) (CIP # 0610020216)
- Digital Video Editing and Post-Production (24 credits) (CIP # 0609040217)
- Digital-Webcast Technology (24 credits) (CIP # 0650010218)

Start Right

Degree-seeking students enrolling at Valencia for the first time will have a limited range of courses from which to choose for their first 18 college-level credits. Within the first 18 college credit hours, you will be required to take ENC1101 (3 credits), and if applicable, SLS 1122 (3 credits) and a mathematics course appropriate to your selected meta-major (3 credits). The remaining courses will be chosen from the General Education Core Courses in humanities (3 credits), science (3 credits), or social science (3 credits), and/or the introductory courses within the A.S. degree programs. For specific courses see the *Foundation Courses* on the "Program Requirements" tab. For course sequencing recommendations, see your Career Program Advisor or create an education plan by logging into Atlas, clicking on the LifeMap tab and clicking My Education Plan.

Potential Careers

- Interactive Media Technician
- Motion Graphics Designer
- Web Production Technician
- Broadcast Designer
- Post-Production Specialist
- Digital Video Editor
- Digital Audio Technician
- Digital Videographer

- Digital Media Production Specialist

Notes:

Specialized program courses are offered on the East Campus; some of the courses are offered at other locations.

For students who are interested in pursuing a bachelor's degree, this Associate in Science (A.S.) degree will transfer into Valencia's Bachelor of Applied Science (B.A.S.) degree in Business and Organizational Leadership. You also have the option of transferring into a related bachelor's degree program that is offered at any state college in Florida. Students who wish to continue their education should consult with their Career Program Advisor to determine the best education plan for their career goals. Students wishing to transfer credits from this program to another institution must also accept responsibility for securing approval from the transfer institution.

Specialized courses may not be offered every session or on every campus.

Digital Broadcast Production

Technical Certificate

This program is designed to prepare students for initial employment as digital broadcast production technicians. This basic-to-intermediate-level certificate provides students with the skills needed for the use of computer hardware and software, and video equipment to create digital broadcast projects.

Program Outcomes

- Employ writing that allows stories to be easily searched and found.
- Adapt stories to different scales and formats depending on delivery requirements.
- Utilize visual storytelling techniques.
- Demonstrate competency with video and still cameras.
- Choose the correct compression formats for distribution.

- Create graphics.
