DRAFTING AND DESIGN TECHNOLOGY

Associate in Science Degree (CIP# 1615130102)

This program is designed to train technicians to assist engineers by translating ideas, rough sketches, specifications and calculations into complete and accurate working drawings. In addition, instruction is given in three CADD (Computer Aided Drafting and Design) courses which prepares the student for employment with institutions using computer assisted engineering and design.

Students are strongly encouraged to consult a career program advisor in the department office for assistance in determining the best education plan for their career goals.

Although scheduling may not always provide for the following progression of courses, students should use the foundation, intermediate and advanced course sequence as a guide in program planning.

All degree-seeking students must satisfy entry testing requirements and satisfactorily complete all mandatory courses in reading, student success, mathematics, English, and English for Academic Purposes in which the student is placed.

Alternative Ways to Earn Credit toward this Degree

Graduates of specific programs at Orange Technical College and Osceola Technical College, as well as other institutions may be eligible to receive college credit for courses in this program. You may also be eligible to receive credit toward this degree if you have earned one of the approved Gold Standard industry certifications or Career Pathways credit. To learn more about Valencia’s award of credit options, visit valenciacollege.edu/asdegrees/credit_octc.cfm. Eligible students should contact the Career Program Advisor in their academic department for more information about the requirements for the award of credit.

College Credit Technical Certificates

The Drafting and Design A.S. degree also offers the following college credit certificate programs. These certificates can put you on the fast-track to reaching your career goals. Most can be completed in one year or less, and all of the courses in the certificates are embedded in the A.S. degree. You can earn the certificates as you progress through your A.S. Degree or as a separate, stand-alone credential. Click on the Certificate tab at the top of the page for more information about the certificates that are offered.

• Rapid Prototyping Specialist - 3-D Printing (12 credits) (CIP # 0615000012)
• Drafting - AutoCAD (15 credits) (CIP # 0615130204)
• Drafting with Specializations in: (24 credits)
  • Architectural Drafting (CIP # 0615130101)
  • Mechanical Drafting (CIP # 0615130101)
  • Surveying Drafting (CIP # 0615130101)

Start Right

Degree-seeking students enrolling at Valencia for the first time will have a limited range of courses from which to choose for their first 18 college-level credits. Within the first 18 college credit hours, you will be required to take ENC1101 (3 credits), and if applicable, SLS 1122 (3 credits) and a mathematics course appropriate to your selected major (3 credits). The remaining courses will be chosen from the General Education Core Courses in humanities (3 credits), science (3 credits), or social science (3 credits), and/or the introductory courses within the A.S. degree programs. For specific courses see the Foundation Courses on the “Program Requirements” tab. For course sequencing recommendations, see your Career Program Advisor or create an education plan by logging into Atlas, clicking on the LifeMap tab and clicking My Education Plan.

Potential Careers

• Drafting and Design Technician
• Mechanical Engineering Assistant
• CADD Operator/Specialist
• CADD Drafting Technician/Specialist
• Mechanical Drafter
• Architectural Drafter
• Drafting Designer
• Tooling Drafter

Salary & Earnings Information

For salary and wage information, visit: www.floridawages.com (http://www.floridawages.com).

Contacts

Future Students

To learn more about this program, contact Enrollment Services at enrollment@valenciacollege.edu or 407-582-1507 or visit valenciacollege.edu/drafting-and-design-technology/ (https://net1.valenciacollege.edu/future-students/degree-options/associates/drafting-and-design-technology).

Current Students

Contact the Career Program Advisor below for more information.

Andrew Ray, R.A, Program Chair, West Campus: 407-582-1847 aray@valenciacollege.edu

Beverly Johnson, Career Program Advisor, West Campus: 407-582-1890 bjohnson@valenciacollege.edu

Internship and Workforce Services

If you need assistance with job resources or in locating an internship, please visit: valenciacollege.edu/internship (http://valenciacollege.edu/internship).

Program Outcomes

• Accept professional and ethical responsibilities required by industry.
• Communicate effectively with technical and non-technical audiences.
• Analyze systems and processes used to create the built environment.
• Solve design problems using algebraic and trigonometric functions.
• Efficiently utilize current professional software to generate 2D and 3D drawings.

Drafting Design Technology Electives 8

Total Credit Hours 62

Drafting and Design Technology Electives
The Electives requirement may be satisfied with any course(s) in the Course Descriptions section of the Valencia Catalog with the subject prefix of BCN, BCT, ETC, ETD, ETM, SUR or TAR.

+ This course must be completed with a grade of C or better.
* This course has a prerequisite; check description in Valencia catalog.
~ This is a general education course.
(GR) Denotes a Gordon Rule course.

Notes:
All specialized program courses are offered on the West Campus and may not be offered every session; some specialized courses are offered at other locations.

Upon earning the Drafting & Design A.S. degree, you can continue at Valencia to complete the B.A.S. degree in Business & Organizational Leadership (http://catalog.valenciacollege.edu/degrees/bachelorofscience/bas). Additional education at the bachelor’s level can enhance your skills and create more career opportunities. Students who wish to continue their education should consult with their Career Program Advisor to discuss transfer options and requirements, and determine the best education plan for their career goals.

Students wishing to transfer credits from this program to another institution must accept responsibility for securing approval from the transfer institution for acceptance of this degree.

Drafting with Specializations in
- Architectural Drafting
- Mechanical Drafting
- Surveying Drafting

Technical Certificate
This program is designed to prepare individuals for entry-level positions in architectural, mechanical, and surveying drafting that require computer-aided drafting skills. The content prepares the student to draw, dimension, and print drawings by computer in the respective specialization area.

Foundation Courses
ETD 1340C ADVANCED CADD * 3
ETD 1103C ENGINEERING GRAPHICS WITH CAD 3
BCN 1303C BUILDING INFORMATION MODELING (REVIT W/DYNAMO) * 3
MTB 2321C TECHNICAL MATH 3

Specialization Electives (All from the same Specialization) 12

Total Credit Hours 24

Architectural Drafting Specialization

Program Outcomes
- Efficiently utilize current professional software to generate 2D and 3D drawings.
- Solve design problems using algebraic and trigonometric functions.
- Analyze systems and processes used to create the built environment.

Architectural Drafting Specialization Electives
BCN 1272 CONSTRUCTION BLUEPRINT READING 3
BCN 2941 INTERNSHIP EXPLORATION IN CONSTRUCTION * 1-4
BCT 2770C BUILDING CONSTRUCTION ESTIMATING (FORMERLY BCT 2600) * 3
ETD 2355C 3-D CADD 3
ETD 1251C ENGINEERING MATERIALS AND PROCESSES 3
SUR 2390C INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS 3
TAR 1120C ARCHITECTURAL DRAWING I * 3
TAR 2033C ARCHITECTURAL DESIGN * 3

* This course has a prerequisite; check description in Valencia catalog.

Mechanical Drafting Specialization

Program Outcomes
- Efficiently utilize current professional software to generate 2D and 3D drawings.
- Solve design problems using algebraic and trigonometric functions.

Mechanical Drafting Specialization Electives
ETD 1701C MECHANICAL DRAFTING I * 3
ETD 2355C 3-D CADD 3

Notes:

All certificate courses are offered on the West Campus; some courses are offered at other locations.

Specialized courses may not be offered every session or on every campus.

This certificate program is eligible for Financial Aid.

**Drafting - AutoCAD**

Technical Certificate

This program is designed for a professional or entry-level individual in a technical area that requires computer-aided drafting skills. The content prepares the student to draw, dimension, and print technical drawings by computer.

Program Outcomes

- Solve design problems using algebraic and trigonometric functions.
- Efficiently utilize current professional software to generate 2D and 3D drawings.

Rapid Prototyping Specialist

Technical Certificate

This certificate is intended for students to learn the fundamentals of rapid prototyping to analyze designs and create 3D models using a variety of 3D scanners and printers. The basics of solid modeling software, primarily Solidworks, will be explored in the creation of STL (StereoLithography) files for 3D printing. Design Analysis techniques will be used to analyze models for appropriate design concepts and material usage. Working in a collaborative team environment, students will learn to effectively analyze model results for successfully achieving design parameters.

Program Outcomes

- Efficiently utilize current professional software to generate 3D digital models.
- Demonstrate understanding of the concepts, applications, and hardware used in digital manufacturing processes.
