

# ASSOCIATE IN ARTS (A.A.) DEGREE

The Associate in Arts (A.A.) degree is designed for the student who plans to transfer to a Florida public university as a junior to complete a Bachelor's degree. Through the A.A. degree, Valencia offers lower division preparation for almost all of the approximately 200 majors in the State University System of Florida. The A.A. degree provides the courses of study equivalent to those offered in the freshman and sophomore years (lower division) of Florida's state universities; a student who earns an A.A. degree from Valencia meets the lower division general education requirements of a Florida state university, but does not automatically meet the requirements for a particular major.

The A.A. degree requirements consist of general education requirements and electives to prepare for a Bachelor's degree. Many majors at the universities require that specific courses be taken as part of the A.A. degree, both within general education and within the electives; known as common prerequisites, these specific courses are to be taken prior to transferring by all students who plan to enter a particular major within the university system. These requirements may be met by completing an A.A. degree pathway at Valencia or by careful selection of courses for the Associate in Arts. Catalogs and/or Web sites of the state universities list the courses, including the Common Program Prerequisites (CPPs), that are to be taken at the community college in order to enter the junior year in a particular major at the university.

Valencia's degree pathways are designed for a student who plans to earn the Associate in Arts degree and transfer to one of the state universities or state colleges in Florida as a junior to complete a Bachelor's degree in one of the specific majors. Each degree pathway includes the courses to satisfy Valencia's general education requirements for the A.A. degree as well as the Common Program Prerequisites for the specific major.

The Associate in Arts degree requires 60 eligible college-level credit hours, which includes 36 credits of general education (<http://catalog.valenciacollege.edu/degrees/associateinarts/courserequirements/>) and 24 credit hours of electives.

If you plan to transfer to a Florida state university or state college, it is very important that you take the courses at Valencia that are required for admission to your major at the university you plan to attend. These Common Program Prerequisite requirements are available electronically through the university websites and through the Florida Virtual Campus (FLVC) website at [flvc.org](https://www.flvc.org) (<https://www.flvc.org>). Not all majors are offered at every university. For assistance in accessing information about majors, you are encouraged to visit a Career Center or the Atlas Lab on any campus where you also may complete, through the LifeMap Tools in Atlas, an education plan to prepare you for a specific major(s). Once you have created an education plan through Atlas, you may meet with a Student Services staff member to discuss the requirements for a particular major(s).

The A.A. degree guarantees admission to one of the state universities, but not necessarily admission to a specific major (program) (Florida Statute 1007.23). Certain majors are designated as "restricted-access" or "limited-access" programs, meaning that they have admission requirements in addition to earning the A.A. degree. These requirements may include: the completion of specific courses; a minimum grade point average in specific courses; a minimum grade point average in all course work; an interview, a minimum number of hours of related volunteer work;

an audition; the submission of a portfolio; and/or a specified deadline(s). Requirements such as these are given in the university catalogs and websites and at [flvc.org](https://www.flvc.org) (<https://www.flvc.org>). It is very important to find out if the major(s) in which you are interested is either "restricted-access" or "limited-access" and, if so, the exact requirements in addition to the A.A. degree.

Although the A.A. degree does not guarantee admission to a private and/or out-of-state institution, you can find out what the lower division course requirements are for the institution and include all, or as many as possible, of the requirements in your A.A. degree. To find out what the requirements are, you may visit any campus Career Center on any campus, review [flvc.org](https://www.flvc.org) (<https://www.flvc.org>), visit the institution's Web site or contact the institution directly. Although Valencia staff members cannot speak on behalf of other institutions, once you know the requirements, a Student Services staff member will assist you in developing an education plan for your A.A. degree. In addition, Valencia maintains articulation agreements with many colleges and universities that outline the requirements for transfer for each institution, including benefits specific to our graduates (where applicable). Articulation agreements can be found at <https://valenciacollege.edu/academics/programs/aa-degree/articulation/>.

In order to have a smooth academic transfer, it is very important that you take the initiative to know all of the requirements for your major at the institution to which you plan to transfer.

Your governing catalog is the Valencia College catalog in effect at the time of your initial enrollment in associate or bachelor's degree credit courses as a degree-seeking student at Valencia. A Valencia catalog is valid for five academic years provided you are continuously enrolled as defined in the glossary of this catalog. If you are applying to a limited access program and the admissions requirements change within your five year catalog time period, you will qualify for a transition plan to the new requirements. Your governing catalog will be updated to the Valencia College catalog in effect at the time of your enrollment in the limited access program. You may officially declare any subsequent catalog as your governing catalog and follow its requirements for your initial degree or certificate program until that catalog expires. If you change your degree or certificate program, your governing catalog will be the catalog in effect at the time of your change. If you add a degree or certificate program, the new program will be governed by the catalog in effect at the time of the addition while the governing catalog for the original program will remain unchanged. If your governing catalog has expired, your new governing catalog will be the catalog in effect in your next term of enrollment. Should the District Board of Trustees approve changes in program requirements to be effective within the academic year, the revised requirements will be available in the catalog, academic departments, and Student Success Coaches offices. Students affected by the change in requirements should contact the appropriate Student Success Coach, Program Director, or Academic Dean to discuss degree requirements and education plan options.

## A.A. Program Learning Outcomes

The A.A. Program Learning Outcomes are the General Education outcomes and the following outcome: Students will demonstrate the readiness for transfer to a Bachelor's degree program.
