

RESPIRATORY CARE

Associate in Science Degree (CIP# 1351090800)

Limited-Access

Respiratory Therapists assist in diagnosing and treating patients with acute and chronic cardiopulmonary illnesses. The work of respiratory therapy extends Practitioners into intensive care with patients on mechanical ventilation. Practitioners assist physicians in treatment ranging from bedside surgical procedures to balloon pump management in the operating room. Therapists treat patients with pulmonary diseases ranging from premature infants with underdeveloped lungs to COPD patients with chronic lung disease. The primary employer for a credentialed Respiratory Therapist is the acute care hospital. This dynamic profession can lead therapists to different specializations such as pulmonary functions testing, pulmonary rehabilitation, polysomnography, medical sales, management, and education.

Graduates are eligible to obtain the national credential(s) through the National Board for Respiratory Care. Once you complete your A.S. degree in Respiratory Care, you can now continue on and get your Bachelor's degree from Valencia in Cardiopulmonary Sciences. With additional education at the Bachelor level and professional experience, you will enhance your skills and have more career options available.

Accreditation

The Commission on Accreditation for Respiratory Care (CoARC) (<https://coarc.com/>) has completed verification of the Programmatic Outcomes Data the Annual Report of Current Status (RCS) (<https://coarc.com/students/programmatic-outcomes-data/>). This outcome data is for Respiratory Care (Program #200152) at Valencia College and is based on a 3-year average.

CoARC (<https://coarc.com/>) accredits respiratory therapy education programs in the United States. To achieve this end, it utilizes an 'outcomes-based' process. Programmatic outcomes are performance indicators that reflect the extent to which the educational goals of the program are achieved and by which program effectiveness is documented.

Valencia College – 200152 AS degree Respiratory Therapy, 1800 S Kirkman Rd, Orlando, FL 32811, is accredited by the Commission on Accreditation for Respiratory Care (<https://coarc.com/>) (www.coarc.com) (<https://coarc.com/>).

Respiratory Care is a limited-access program. Admission to Valencia does not imply acceptance to the Respiratory Care Program; students must apply and be accepted into the program. General admission procedures for this program are found in the Admissions section of this catalog. The School of Health Sciences provides information about specific admission criteria.

Estimated program expenses are given in the Financial section of this catalog.

Admission requirements that must be satisfied prior to submitting an application to the A.S. Degree Program in Respiratory Care are:

- Review the general admission requirements for Health Sciences programs in the Admissions section of this catalog.

- Submit a completed Valencia Application for Admission; satisfy the requirements for degree-seeking status and be in active student status.
- Satisfy the college entry testing requirements and satisfactorily complete all mandatory courses in reading, Professions of Caring (HSC 1004) for students pending acceptance to a health sciences program, or New Student Experience (SLS 1122), mathematics, English, and English for Academic Purposes in which you are placed.
- Complete Respiratory Care Prerequisite for admission Courses with a minimum grade of C.
- Have a minimum overall college GPA of 2.0 (including transfer work). NOTE: Transfer students with completed coursework at Valencia College also need to have a minimum institutional/Valencia GPA of 2.0 as well at the time of applying.
- Submit the completed Valencia Respiratory Care Program application with the application fee.

A minimum grade of C must be achieved in all respiratory care and required courses to meet a prerequisite or graduation requirement.

Any student admitted to the Respiratory Care Program who fails or withdraws from any RET-prefix courses must petition the Health Sciences Admissions Committee for re-evaluation and readmission. Students will be allowed to petition one time. The petition process can be found in the Respiratory Care Student Handbook.

Students are strongly encouraged to consult their campus based Student Success Coach for assistance in determining the best education plan for their career goals.

~ This is a general education course.

Notes:

All accepted applicants are required to submit applications through Valencia for a criminal background check and drug testing. Applicants for Valencia's Health Sciences programs must be free of offenses that would disqualify them from a student clinical experience in a healthcare setting and must have their civil rights intact. This policy is in response to requirements by clinical agencies and state/federal regulations.

Specialized program courses are offered on the West Campus and may not be offered every session.

Upon earning the A.S. degree in Respiratory Care, eligible applicants can continue at Valencia to complete the Bachelor's degree in Cardiopulmonary Sciences (<https://catalog.valenciacollege.edu/degrees/bachelorofscience/astobscardiopulmonarysciences/>) or a bachelor-level Advanced Technical Certificate (ATC) in Echocardiography (<https://catalog.valenciacollege.edu/degrees/advancedtechnicalcertificates/echocardiography/>). Additional education at the bachelor's level and professional experience can enhance your skills and create more career opportunities.

Students who wish to continue their education should consult with their Student Success Coach to determine the best education plan for their career goals. <https://catalog.valenciacollege.edu/degrees/advancedtechnicalcertificates/echocardiography/>
