

PLANT SCIENCE AND AGRICULTURAL TECHNOLOGY

Plant Science and Agricultural Technology with Specializations in:

- Horticulture
- Landscape
- Sustainable Agriculture

Associate in Science Degree CIP# 1101060502

This program is designed to prepare students for careers in the landscape and horticulture industries. Students may choose to specialize in two areas: landscape or horticulture. The Landscape Specialization provides for skills in landscape design, construction, and maintenance, which include instruction in constructing and landscaping parks, airports, communities, resorts, etc. Students are trained to supervise, manage, and design exterior and interior landscapes. The Horticulture Specialization is designed to prepare students for careers in both greenhouse and nursery operations and includes instruction in greenhouse foliage, flower and woody nursery production. Students are specially trained to operate and manage all types of plant productions, programs and facilities.

Students are strongly encouraged to consult a Career Program Advisor in the department office for assistance in determining the best education plan for their career goals.

Although scheduling may not always provide for the following progression of courses, students should use the foundation, intermediate and specialization course sequence as a guide in program planning.

All degree-seeking students must satisfy entry testing requirements and satisfactorily complete all mandatory courses in reading, student success, mathematics, English, and English for Academic Purposes in which the student is placed.

Alternative Ways to Earn Credit

You may be eligible to receive credit toward this degree if you have earned an approved industry certification or Career Pathways credit.

For more information and requirements, go to valenciacollege.edu/asdegrees/transferagreements.cfm (<http://valenciacollege.edu/asdegrees/transferagreements.cfm>) to view the award of credit options. Eligible students should contact the related academic department and/or Career Program Advisor at Valencia for the award of credit.

Technical Certificates

The Plant Science and Agricultural A.S. degree also offers the following college credit certificate programs. These certificate programs can put you on the fast-track to reaching your career goals. They are designed to equip you with a specialized skill set for entry-level employment or to upgrade your skills for job advancement. Most can be completed in one year or less, and all of the courses in the certificate programs are embedded in the A.S. degree. Click on the Certificate tab at the top of the page for more information about the course requirements.

- Plant Science Specialist (12 credits) (CIP # 0101060503)
- Plant Science Professional (18 credits) (CIP # 0101060504)
- Plant Science Technician (30 credits) (CIP # 0101060505)

Start Right

Degree-seeking students enrolling at Valencia for the first time will have a limited range of courses from which to choose for their first 18 college-level credits. Within the first 18 college credit hours, you will be required to take ENC1101 (3 credits), and if applicable, SLS 1122 (3 credits) and a mathematics course appropriate to your selected meta-major (3 credits). The remaining courses will be chosen from the General Education Core Courses in humanities (3 credits), science (3 credits), or social science (3 credits), and/or the introductory courses within the A.S. degree programs. For specific courses see the *Foundation Courses* on the "Program Requirements" tab. For course sequencing recommendations, see your Career Program Advisor or create an education plan by logging into Atlas, clicking on the LifeMap tab and clicking My Education Plan.

Expand your career opportunities with a Bachelor's Degree in Business and Organizational Leadership (BASBOL) from Valencia. This degree builds on your skills, and prepares you for a supervisory or management role within your respective field. For more information, go to: Bachelor's Degree in Business & Organizational Leadership (<http://catalog.valenciacollege.edu/degrees/bachelorofscience/bas/>). Students who wish to continue their education should consult with a Career Program Advisor to determine the best education plan for their career goals.

Students wishing to transfer credits from this program to another institution must accept responsibility for securing approval from the transfer institution for acceptance of this degree.

Plant Science Specialist

Technical Certificate

This program is designed to prepare students for entry-level employment in the landscape and horticulture industries as nursery workers, landscape and horticulture workers and specialists. Areas of study include an understanding of plant physiology, growth, plant classification and plant identification.

Program Outcomes

- Categorize plants based on growth, morphological, and taxonomic characteristics.
- Design a pest management program.
- Demonstrate employability skills in the landscape field.
