RADIOLOGIC AND IMAGING SCIENCES

Bachelor of Science Degree in Radiologic and Imaging Sciences (CIP# 1105109071)

Limited Access
School of Allied Health

The Radiologic and Imaging Sciences Bachelor's degree offers graduates of Radiography, Sonography, Nuclear Medicine, or Radiation Therapy Associate degree programs who hold professional certification the opportunity to expand their knowledge in advanced modalities or quality management and administration. The Radiologic and Imaging professions are challenging and growing professions with career opportunities in areas such as computed tomography, magnetic resonance imaging, mammography, angiography, and quality assurance. With professional experience and additional education at the baccalaureate level, opportunities for management and education career options are enhanced. The Radiologic and Imaging Sciences program is accredited by the Joint Review Committee on Education in Radiologic Technology (J.R.C.E.R.T.).

With the exception of the Practicum course, the BSRAD program is an online program.

Since the BSRAD is a limited access program, admission to Valencia does not imply acceptance to the program.

Program Concentrations
- Cardiac Ultrasound Concentration
- Computed Tomography (CT) Concentration
- Leadership Concentration
- Magnetic Resonance Imaging (MRI) Concentration
- Mammography Concentration
- Vascular Ultrasound Concentration

Potential Careers
- Radiology Management/Administration
- Education
- Advanced Clinical Practice in:
  - Computed Tomography
  - Magnetic Resonance Imaging
  - Mammography

Overview of Radiologic and Imaging Sciences

For the Radiologic and Imaging Sciences program, students must hold current professional certification and a degree in an imaging field. Students must provide proof of current professional certification or its equivalent in their respective imaging discipline: from the American Registry of Radiologic Technologists (ARRT), American Registry of Diagnostic Medical Sonographers (ARDMS), or Nuclear Medicine Technology Certification Board (NMTCB).

Students must have a minimum of 68 accepted credits and one of the following degrees from a regionally accredited institution:
- Associate Degree in Diagnostic Medical Sonography
- Associate Degree in Nuclear Medicine Technology
- Associate Degree in Radiation Therapy
- Associate Degree in Radiography

Students who hold the appropriate professional certification and an Associate degree or higher in any other field may also be considered for admission.

For admission, the following prerequisite coursework must be completed with a minimum grade of C:

In their junior and senior years, students will be required to complete the following coursework:

Any additional credits needed to complete the state-mandated 36 General Education credits in all five areas according to Valencia program requirements. If a student holds an Associate in Arts degree or higher from a regionally accredited institution, all General Education requirements will be satisfied https://catalog.valenciacollege.edu/degrees/bachelorofscience/generaleducation/.

27 credits in upper-division core courses

15 credits in upper-division concentration area

Students are responsible for meeting the degree graduation requirements found under the Program Requirements tab located on this page.

Admission Requirements
- Be a U.S. citizen or U.S. permanent resident or in a non-resident immigrant category other than F or J visa categories
- Have an address in the State of Florida
- Review the current BSRAD Program Guide and updates at https://valenciacollege.edu/academics/programs/health-sciences/
radiologic-imaging-sciences/index.php (https://valenciacollege.edu/academics/programs/health-sciences/radiologic-imaging-sciences/)

- Submit a completed Valencia Application for Admission using the Bachelor’s Degree & ATC application, and be in Active Student Status.
- Have a minimum overall college GPA of 2.5.
- Submit official transcripts from all prior colleges and universities with one denoting completion of an Associate degree or higher from a regionally accredited institution with a minimum of 68 accepted credits of course work, including the previously-specified General Education coursework. An applicant who holds a professional credential in the field and any associate degree or higher from a regionally accredited institution may substitute their professional credential in lieu of having the degree in an eligible field. Documentation will be required.
- Following your admission to Valencia College as a candidate for the Bachelor of Science, complete the online Bachelor’s Degree Orientation and submit a copy of your current certification with ARRT, ARDMS, NMTCB, or equivalent certification to AlliedHealthBS.ATC@valenciacollege.edu.

**Note:** Prior to enrollment in a clinical practicum, provide documentation of the following requirements:

- Current criminal background check
- Fingerprinting
- Drug testing
- Physical exam forms
- Up-to-date immunization data

### Program Outcomes

- Perform effective communication skills within the healthcare environment.
- Practice professional behaviors in the healthcare setting.
- Perform entry level skills as described by the scope of practice for selected clinical concentration.
- Execute safe clinical decision making in healthcare environment.
- Demonstrate information literacy.

### Degree Requirements

Students who did not have a Humanities and/or Social Science course prior to program admission must have at least 6 credits in both areas for degree graduation.

Degree Graduation Requirements

- Successfully pass the General Education and Gordon Rule requirements
- Successfully pass all prerequisites and upper division courses
- Satisfy clinical and non-clinical coursework requirements
- Satisfy the civic literacy requirement
- Submit an application for graduation

Note: Specialized courses may not be offered every session.
• Physical exam form
• Record with up-to-date immunization data

Transfer Notes:

• Students who hold an A.A. or Bachelor’s degree from a regionally accredited institution have satisfied Valencia’s general education program requirements.
• Students transferring from a regionally accredited institution with the general education program (GEP) requirements of that institution met have thereby satisfied Valencia GEP requirements.

Registration Note:
Once a student has been approved as “Course Registration Eligible,” it is the student’s responsibility to secure enrollment in the desired course(s).
