

# ELECTRICAL AND COMPUTER ENGINEERING TECHNOLOGY

## Bachelor of Science Degree in Electrical and Computer Engineering Technology (CIP# 1101503031)

### School of Engineering, Technology & Advanced Manufacturing

The Electrical and Computer Engineering Technology Bachelor's degree offers graduates of an A.S. degree in Electronics Engineering Technology, an A.A. Degree, or an articulated specialization in Audio Engineering Technology within the Sound and Music A.S. degree the opportunity to expand their knowledge in advanced modalities and administration. The Electrical and Computer Engineering professions are challenging and growing professions with career opportunities in areas such as electrical engineering or computer engineering. With professional experience and additional education at the baccalaureate level, opportunities for management and education career options are enhanced.

## Program Concentrations

- Electrical/Electronic Systems
- Computer Systems

## Program Mission

The mission of the Electrical and Computer Engineering Technology program is to offer quality engineering and technology education to develop essential skills to meet the requirements of the industry. Graduates will become productive professionals and leaders by reaching out to community and the profession through innovative services and solutions.

## Program Educational Objectives

- Have a broad understanding of technical and professional skills and concepts and apply them in the analysis of engineering and technology problems for the development of effective solutions for success in industry and/or higher education.
- Effectively communicate and work in cross-functional teams while adhering to high standards of ethics and professional responsibility.

## Potential Careers

- Computer Systems Engineer
- Electrical/Electronic Engineer
- Software Systems Engineer
- Power Systems Engineer
- Network Engineer
- Electro-Optical Systems Engineer
- Control Systems Engineer
- Wireless Systems Engineer

## Accreditation

The Electrical and Computer Engineering Technology (B.S.) program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical/Electronic(s) Engineering Technology and Computer Engineering Technology.

## Application Fee

There is no application fee for this program.

## Admission Requirements

Students must submit official transcripts from all prior colleges and universities and must meet the following criteria:

- Completion of one of the following:
  - A.A. Degree from a regionally accredited institution.
  - A.S. degree in Electronics Engineering Technology from a regionally accredited institution with a minimum of 60 semester hours of course work, including 15 semester hours of transferable General Education courses.
  - Articulated specialization in Audio Engineering Technology within the Sound and Music A.S. degree at Valencia College.
- Completion of PHY 2053C (College Physics I with Algebra and Trigonometry) or PHY 2048C (General Physics with Calculus I) and MAC 1114 (College Trigonometry) or higher with a grade of C or better. These can be taken as part of the general education requirements.

Students who have earned an Associate degree in another field must meet with the B.S.E.C.E.T student success coach for formal evaluation of their eligibility for admission.

### Notes:

- Students initially entering Valencia College are advised to complete the Electronics Engineering Technology A.S to B.S.E.C.E.T pathway. This pathway could satisfy all required general education, program common prerequisites, and lower-level technical courses and student will be eligible to enroll in the upper-level core courses upon the admission. Please see the student success coach for further details.
- A.S. Electrical and Computer Engineering Technology and A.S. Audio Engineering Technology Specialization articulated to the B.S. ECET program students can complete the Advanced Electronic Technician certificate to satisfy the common prerequisites PHY 2053C (College Physics I with Algebra and Trigonometry) and MAC 1114 (College Trigonometry) or higher admission requirements for the B.S. ECET program as well as be eligible for the financial aid for courses in the certificate.

## Degree Requirements

- Students should check with their B.S.E.C.E.T. student success coach frequently to ensure that they are making proper progress toward the degree.
- A grade of "C" (2.0) or better is required in all 3000 and 4000 level courses.

## Alternative Ways to Earn Credit

As a Valencia student, you may be awarded appropriate credit for your demonstrated knowledge gained from experiential learning. This learning may result from an industry certification, in service training or employment experiences. To request course credit based on alternative ways, students are required to provide documentation of the industry certification/licensure, employment records, or portfolio and demonstrate acquired knowledge, skills, and competencies linked to the learning outcomes for the course(s) for which students are seeking credit.

Please contact the B.S.E.C.E.T student success coach for the Award of Credit Request Form and the required documentation.

## Program Outcomes

Student will demonstrate:

- an ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;
- an ability to design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline;
- an ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
- an ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
- an ability to function effectively as a member as well as a leader on technical teams.

## Valencia General Education Requirements

<b>Communication</b>		<b>9</b>
ENC 1101	FRESHMAN COMPOSITION I <sup>++~</sup>	
ENC 1102	FRESHMAN COMPOSITION II <sup>++~</sup>	
SPC 1608 or SPC 1017	FUNDAMENTALS OF SPEECH INTERPERSONAL COMMUNICATION	
<b>Social Sciences</b>		<b>3</b>

\* This course has a prerequisite; check description in Valencia catalog

+ This course must be completed with a grade of C or better

~ This is a General Education course

(GB) denotes a Gordon Rule course

^ Required for a graduate degree in electrical or computer engineering

### Transfer Notes:

- Specialized courses may not be offered every session or on every campus.
- Satisfy Valencia's General Education requirements and Gordon Rule requirements unless you hold an Associate in Arts or Bachelor's degree from a regionally accredited institution.
- Students transferring from a regionally accredited institution with an A.A. degree with the GEP requirements of that institution met have thereby satisfied Valencia GEP requirements.
- Students entering a Valencia undergraduate program and having a previously earned baccalaureate degree from an accredited institution have thereby satisfied Valencia GEP requirements. (See also the section on the GEP found elsewhere in the catalog.)
- Substitutions for 3000 and 4000 level courses are on a course-by-course basis and MUST be approved by the department chair.
- Course transferred must be formally evaluated for equivalency credit. The student must provide all supporting information to the B.S.E.C.E.T Department for this evaluation.
