

NEW STUDENT ORIENTATION

All new, degree-seeking students are required to participate in orientation and advising before registering for their first term. New Student Orientation includes career and education planning, college resources, and group advising. Following application to Valencia and intake processing, new and transfer degree-seeking students must sign up for a two-part New Student Orientation session. New Student Orientation registration is completed through the student's Atlas account. Students are able to register for classes after completing both parts of New Student Orientation.
